How to Host a Virtual Seder

Script Template

The 2 for Seder Team wishes you a happy and healthy Passover 2020

Instructions: This template is a guide to get you started and you are welcome to play with it. We have included two sample lines to give you an idea of how to fill in the template. We recommend a script like this if you have more than three locations.

TIP 1: Have a Point of Contact (POC) at each location

TIP 2: Pick one Haggadah (either online, one version owned by multiple families,or buy new ones). Take pictures of the pages you will be using and send by email to each POC – so you are all literally on the same page

Haggadah Page	Action	Speaker	POC
5	Prayer over first glass of wine	Dad	Mom
6	Responsive reading	Aunt Jo	David
